

NEXTGEN and Collision Avoidance

At this seminar we will be discussing the FAA's Next Generation Air Transportation System (NextGen): What is it? Why do we need it? What do we get out of it? We will also be discussing airport operations which can often be a challenging environment, and can even pose a collision danger in the air or on the ground when pilots don't follow the recommended procedures. We will review regulations and recommended procedures when operating at airports, to help make us safer pilots. Please click on the link below to see more details and to register for this event!

Directions: Please see map link to the Air National Guard Building.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
